6. In a few words, how would you describe the community's ability to deal with a potential emergency situation within the community? (examples include informed, confident, worried)
7. In the event of an emergency what do you believe would be the single greatest project that could improve preparedness/resilience within our community?
8. Would you like to be involved with planning XXX future?

Purpose:

This community survey is important to engage the broader community and gather the wider community's thoughts about their greatest areas of need. After the community advisory group have built their shared knowledge and understanding about the resilience challenges and opportunities facing their community, it is important for the community group to think about what they would like to know from the broader community.

How to use:

- Using these questions, or questions developed by the community group, conduct a community survey to inform an understanding of resilience from the broader community.
